

St. Paul Hiking Club Recreation of Inaugural 1921 Hike on January 19, 2021

The St. Paul Hiking Club started their tribute hike at 2:30 p.m. at the corner of Burns Avenue and English Street.

Although overcast early on the hike, the walk through the woods was lovely.

Hikers took a quick break on their three-mile trek to their destination.

The group made it to a former schoolhouse converted into a single-family home on Point Douglas Road and then turned around and headed home.

Club members ended their trek just as the sun set through the woods and over St. Paul on a chilly winter evening.

Seven hikers braved the cold and paid tribute to the club's founders, who hiked a similar path a century earlier.
